### More info...

That cold, north wind cuts through you like a buzz saw, and the cold dampness sinks in like a sponge, nothing can warm you up like a steaming bowl of homemade soup. It's the perfect time to explore the newly updated gem created by the renown Culinary Institute of America -- The New Book of Soups.

Review: Barnes & Noble reader is dual-screen mess (AP via Yahoo! Finance)

The e-book reading device is the gadget gift of the season. Both Sony and Barnes & Noble have sold out of their new models, and new buyers will have to wait until January for delivery.
